Mark Mykins
Senior Building Inspector
Code Enforcement Officer
Zoning Officer

John Herlihy
Assistant Building Inspector &
Code Enforcement Officer

**Applicant's Responsibility Regarding
Determination of Seasonal High Groundwater Elevation**

It is the responsibility of the Applicant to have the appropriate professional(s) determine the USGS elevation of the seasonal high groundwater of proposed buildings:

The basement or slab elevation for all buildings is required to be a minimum of three (3) feet above the seasonal high groundwater table elevation. All buildings constructed with a basement or slab elevation between three (3) and five (5) feet above the seasonal high groundwater table elevation shall be equipped with a sump pump which discharge to a closed drainage system or an adequate outfall as approved by the licensed professional and the Building Inspector of the Town of Wilton.

My acknowledgement of this responsibility is indicated by my professional signature (P.E. or approved Soils Scientist) for the property listed below:

Name of Applicant: _____

Location of Property: _____

USGS elevation of seasonal high groundwater _____

Proposed basement/slab USGS elevation _____

*** Verification of foundation/slab elevation:**

On the _____ day of _____, 200____, the foundation bottom was measured at USGS elevation of _____. This will result in a top of slab elevation of _____, based on the design plans for the building.

Date

Signature of Professional (with stamp if by P.E.)

Optional space below for additional stamp and signature if L.L.S. was involved:

Date

Signature and Stamp of L.L.S.

*** Note: This portion of the form must be completed, recertified, and resubmitted prior to scheduling of footing inspection.**
